

KOTA SAANA

» THANKS TO A SEPARATELY LOCATED CONTROL PANEL, IT IS EASY TO SWITCH ON THE SAUNA HEATER AND TO ADJUST THE TEMPERATURE.

» THE HEATER IS AVAILABLE PAINTED BLACK OR MADE OF STAINLESS STEEL.

» THANKS TO THE GRID, THE STONES ARE DISPLAYED IN AN EYE-CATCHING WAY.

» THE HEATER IS AVAILABLE WITH TWO POWER RATINGS: 6,8 KW AND 9,0 KW.

In the Kota Saana electric sauna heater, good steam properties are combined with a stylish design. Thanks to the amount of sauna heater stones and their design, the sauna heater has excellent heat accumulating properties and provides users with soft, sustained steam. The electronic thermostat keeps the temperature at the required and pleasantly even level. The set of the sauna heater also includes a stylish, autonomous control panel that makes it very easy to use the sauna heater. The standard length of the cable of the control unit is 3 m; 10 m cables are also optionally available.
